

Thank you for volunteering to participate in our mentorship program!

Badger Skulls Alumni Association started this program to support our mission to the Alpha Theta chapter and its members, and now you can help continue that trend.

Our program is flexible based on the preferences of the mentor and mentee. We recommend that you meet one-on-one at least once per semester, and there are many ways to connect. Whether it be through video chat, phone or otherwise, we encourage you to choose whatever works best. Once a month, we'll also do group mentoring sessions on topics chosen by the undergraduate participants.

Getting enrolled is the first step and only takes a few moments. To begin, please review the participation requirements, and feel free to ask any questions that you may have. To successfully enroll, please complete all fields of the form. You will then be paired with an undergraduate with similar interests, fields and hobbies.

We look forward to your participation!

Craig Bolyard
Mentorship Coordinator
